Subject: List of 316(b) Facilities: Expired Permits and Waterbody Names

Hi Drew and Cathy,

I have attached a copy of the 316(b) facility list that we used to respond to an inquiry from Congressman Markey concerning facilities with cooling water intakes operating under expired permits. Among other things, the list contains permit expiration dates and the names of the waterbodies on which the facilities are located. This list was current as of November 2012, but there are probably only a few facilities, if any, where expired permits have since been renewed.
